signature laser treatments

arria forever young

bbl light therapy - high-energy pulses of light to provide long-lasting skin improvement

arria moxi

this "prejuvenation" treatment is incredible for all skin types and safe to perform year-round - anti-aging with no downtime

arria clear

acne relief - works in three different ways to target bacteria, reduce inflammation, and treat acne scars

arria shine

bbl+moxi - moxi improves the surface and texture of the skin, while bbl evens out areas of excess brown pigment, redness and acne

arria forever bare

laser hair reduction for unwanted face and body hair

fractional laser resurfacing

allows for deeper treatment and significant skin transformation

hand rejuvenation

improves wrinkles and sun damage

37 N. Fullerton Ave. Suite A Montclair, NJ 07042

body contouring/fat reduction

kybella

Injectable treatment to permanently remove fat - excellent for the jowls and "double chin"

coolsculpting

non-invasive, non-surgical treatment to remove stubborn fat

hair treatments

prp injections

regenerative treatment to stimulate hair growth

regenerative medicine

pdo threads

skin tightening and lifting treatment to improve thickness and quality of the skin using polydioxanone (dissolvable) sutures

prp/prf/biofiller

rich in growth factors, these natural alternatives use your own autologous tissue (blood) to improve the appearance of the skin, speed healing, and treat hair loss
